On August 2, 2010, Rachel's brother took Bear-Bear to the off leash dog park for his daily romp. He played with a German Shepard, Asia, whom is owned by Keith Elgin Shepherd and his wife. Bear-Bear went up to Asia and began to interact with her. Shepherd shot Bear in the abdomen with a 9mm gun loaded with hydra shock bullets. This caused irreparable damage to Bear-Bear's vital internal organs. Bear-Bear was euthanized later that evening due to his extensive injuries.

Based on initial information provided by Shepherd and the original police report, AA Co. Police determined the case closed. Public outcry won the attention of the AA Co. States Attorney and the case was reopened, investigated more thoroughly & later 2 misdemeanor charges were filed against the shooter.
